EMERGENCY BATTERY BACKUP SUMP PUMP SYSTEM

Flooding happens. You can never be too prepared to protect your home.

PENTAIR HOME

Leverage remote monitoring, protect your basement and stay informed no matter where you are.

According to the National Flood Insurance Program, **floods are the most common natural disaster** in the USA, with yearly claims over $3 billion.

A basement flood can damage your home's foundation, framing, drywall, plumbing system, electrical system, plus furniture and precious, often irreplaceable belongings.

The average residential flood claim amounts to more than $30,000 per flood, which is not covered in most standard homeowner insurance policies.

ENSURE YOUR SUMP PUMP **ALWAYS HAS POWER.**

You need a sump pump to protect your home from the catastrophic impact of flooding. But when the power's out, a standard sump pump can't do its job. And, if you're away from home, you won't know what's going on. You and your house will both be in the dark.

An advanced Pentair Hydromatic® Emergency Battery Backup Sump Pump System is the solution. You'll have a powerful battery standing by, completely separate from your home's standard power supply. When standard power fails, the battery kicks in, and can run your backup sump pump for days to keep your basement dry and your belongings out of danger.

TAKE ADVANTAGE OF OUTSTANDING OUTAGE PROTECTION TIME

UP TO

6 DAYS

11,500 GAL

PER BATTERY CHARGE

*Based on discharging a 20-gallon sump pit 4 times per hour on Premium models
